**Subject:** IT-Department

Dear Ms. Renner

If you can remember i have already been an intern this year and it was very interesting. The IT Department told me a lot about what they are doing and was able to take a lot of experience with me.

I want to be an intern at your facility next year because i think will teach me a lot more about IT in the normal work environment, I want to gain some experience and see if this could be a place where I spend my future life working there.

Best regards

Schneider Armin
